has been known as a drug house. This long established pharmacy has undergone the evolution of more than five decades, always keeping abreast of the times, and is to-day recognized as one of the leading establishments of its kind.

The Prescription Department

has been extended to our adjoining building and is under the management of skilled and competent chemists, isolated from the many disturbing duties of a busy drug store. By devoting their individual attention to the Prescription and Laboratory Work the acme of accuracy is assured, and this firm is justly styled **Prescription Specialists.**

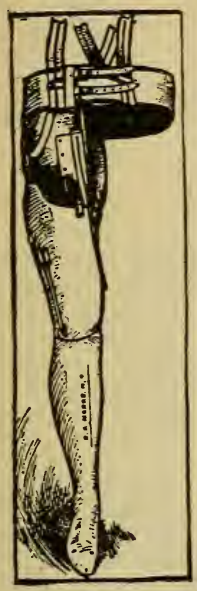
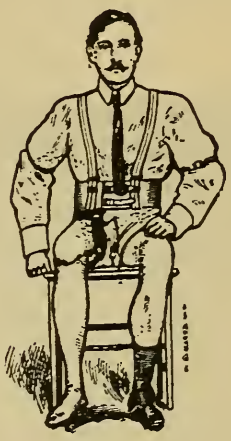
Marks Artificial Limbs

Designed for all Amputations and Deformities.



LEGS and ARMS



THE MOST DIFFICULT PROBLEM in adapting artificial legs to amputations is presented in the hip-joint disarticulation ; Furneaux-Jordan and other methods.

The pelvic socket artificial leg here illustrated is the most recent creation of the Marks establishment. The socket is constructed to receive one-third of the pelvis. An artificial leg is attached to this socket so that it will articulate on the same axis as the hip on the opposite side. The leg is constructed with knee-lock, spring mattress rubber foot, and other improvements. Persons walk acceptably, stand with safety, stoop and sit in a very natural way with one of these legs, although there is no stump to control the leg movements.

For particulars read a **"Manual of Artificial Limbs,"** just published. A cloth-bound copy will be sent, free of all charges.

Being the oldest and largest manufacturers of Oxygen Gas in the country we desire to call the attention of the medical profession to the quality of the Oxygen Gas which we offer. With constant improvements on past experience in the method of producing Oxygen, we are able to put on the market a qualified gas, which we believe is unequaled for its quality. As the profession at large has come to realize the beneficent use of Oxygen for pneumonia, heart trouble, etc., we have devoted our attention to producing the same at the lowest possible cost, without in any way lessening the quality, in order that it may be within the reach of all.

PHYSICIANS ONLY OCCUPY THIS BUILDING

Attempt to Colonize the Medical Fraternity Proves a Great Success—One Hundred Have Offices Under One Roof.

The attempt made in this city to colonize physicians under one roof and set aside a building exclusively for their use has proved a great success, and to-day, the Sydenham, at Fifty-eighth Street and Madison Avenue, which is devoted to that purpose, contains one hundred physicians, whereas a year ago, when the plan was put in effect, there were only sixteen. The Sydenham is the only building in this city occupied solely by physicians.

The idea itself is not new. In Chicago and San Francisco there are well-established office buildings for physicians. A friend of J. C. Lyons, owner of the Sydenham and head of the building and operating company, who had travelled about the West, saw what a good thing it was to centralize the physicians, and talked the matter over with Mr. Lyons. The physicians of New York desired such a building, and one of them even took the preliminary steps to erect it, but sufficient money to acquire a site could not be collected.

It stands on the site of the old Madison Avenue Hotel, and its six stories of brown stone are reserved for perfectly equipped physicians' suites. A sign at the entrance of the building conveys the information that it is occupied exclusively by physicians. Inside the wide hallway with its rich carpeting and its statuary a neatly capped and gowned maid awaits the visitor and directs him to the physician he desires to see. There are maids on each floor who perform the same duty. The building is never closed, and there are always some physicians on hand to answer calls.

A self-constituted board of five physicians—original tenants in the building—pass on the qualifications of each new applicant for office room. The occupants of the building are all specialists in their profession. The majority of them are from this city, but there are some from Yonkers, Long Island, New Rochelle and other points.

The physicians furnish their own offices. No special inducements are offered them to take up office room in the building, but the prospect of having a place where their patients may come and see them without the necessity of going to their residences to interrupt their home life appeals to them.

The glass door leading to each office bears the name of the physician occupying it in neat black letters about an inch high. There are no signs displayed except these.

No canvassers are allowed in the building or any undesirable visitors. All day long a steady stream of patients passes in and out.

AS MUCH of the speech apparatus is under control of the will, considerable may be done for those who suffer from speech defects by a careful training of the respiratory, vocal and articulating organs. This training is given under the direction of a physician of many years' experience. The profession may rely upon having the best treatment known for those who apply to them. Such remedies for nervous and physical conditions as directed by the patient's physician may also be used. The location opposite Bryant Park is very central and accessible. PREFACE

IN presenting the eighth volume of the MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY AND CONNECTICUT, the Medical Society of the State of New York has endeavored to present the best Medical Directory possible of these three States.

In compiling the list of physicians in New York State, the resolution of the House of Delegates passed on May 19, 1906, has been strictly complied with, viz:

"Resolved, That in the MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY AND CONNECTICUT, published by the Medical Society of the State of New York, only the names of registered physicians be inserted."

Owing to the amalgamation of the Medical Society of the State of New York and The New York State Medical Association, the Medical Society of the County of New York has discontinued the publication of the Medical Directory of the City of New York, and has transferred its assets and good will to this DIRECTORY.

The total number of physicians in lists contained in Volume VIII of the MEDICAL DIRECTORY is 15,531, of which 11,976 are in New York State, 2,276 in New Jersey, 1,279 in Connecticut. Of the 11,976 physicians in New York State, 4,293 are credited to Manhattan and Bronx, 1,559 to Brooklyn, 124 to Queens, 58 to Richmond, a total for Greater New York of 6,034, which makes the number of physicians residing in the rest of the State 5,942.

ARTICLE II.—MEMBERSHIP.

Section 1. The membership of this Society shall include all members of county medical societies now in affiliation with this Society and all members of other county medical societies to which charters shall be granted by the House of Delegates pursuant to the By-Laws of this Society, and any member ceasing to be a member of a county medical society shall cease to be a member of this Society.

Sec. 2. The term county medical society as used in this Constitution shall be deemed to include all societies which may be organized and chartered by the House of Delegates.

Sec. 3. The membership of the Society shall be divided into eight district branches, as provided in the By-Laws.

ARTICLE III.—OFFICERS.

Section 1. The officers of the Society shall be a President, three Vice-Presidents, a Secretary, a Treasurer, and one Councillor from each District Branch. They shall be elected annually by ballot for the term of one year, and the majority of the votes cast shall elect. The President, Vice- Presidents, Secretary and Treasurer shall be elected by the House of Delegates. Each Councillor shall be elected by the District Branch of the district in which he resides and shall be the President thereof.

Sec. 2. No delegate elected to the House of Delegates shall be a candidate for office in the Society until after the expiration of the term for which he shall have been elected a delegate, and no person shall be elected to any office in the Society who shall not have been a member of the Society for the two years immediately preceding the date of his election.

* Effective December 9, 1905.

ARTICLE IV.—HOUSE OF DELEGATES.

The House of Delegates shall be the legislative body of the Society and shall be charged with the general management, superintendence and control of the Society and its affairs, and shall have such general powers as may be necessarily incident thereto. It shall have the power to suspend or otherwise discipline county societies. It shall be composed of the officers of the Society and of the chairmen of standing committees, who shall be ex-officio members thereof, and of the delegates elected to the House of Delegates by county societies in affiliation with the society. Each county society shall be entitled to elect to the House of Delegates as many delegates as there shall be state assembly districts in that county at the time of the election; except that each county society shall be entitled to elect at least one delegate; and except that whenever at the time of election, the membership of a county society shall include members from an adjoining county or counties in which there shall be no county society in affiliation with this Society, such county society shall be entitled to elect, from among such members, as many additional delegates as there are assembly districts in the county or counties so represented in its membership.

The House of Delegates may provide for a division of the scientific work of the Society into appropriate sections, and for the organization of the District Branches; and it shall have such additional powers and duties not inconsistent with this Constitution, as the By-Laws may authorize or prescribe. It may adopt rules and regulations for its own government and for the administration of the affairs of the Society, not repugnant to the Constitution and By-Laws of the Society; and it may delegate to the Council such power and authority as may be necessary to the efficient administration of the affairs of the Society, while the House of Delegates shall not be in session.

ARTICLE V.—COUNCIL.

The Council shall be the executive body of the Society. It shall consist of the officers of the Society and of the chairmen of standing committees. The Council shall be the Finance Committee of the Society and shall have such additional powers and duties as the By-Laws may prescribe. It may adopt rules and regulations for its own government and for the administration of the affairs of the Society within its control not repugnant to the Constitution and By-Laws of the Society or to the rules and regulations which may be adopted by the House of Delegates.

ARTICLE VI.—MEETINGS.

Section 1. The annual meeting of the Society shall be held at Albany beginning on the last Tuesday in January of each year.

Sec. 2. Intermediate stated meetings may be held at such time and place as the House of Delegates may appoint.

ARTICLE VII.—FUNDS.

Funds shall be raised by a per capita assessment on each county society and the amount thereof shall be fixed by the House of Delegates. Funds may also be raised by voluntary contributions, by the sale of the publications of the Society, and in any other manner approved by the House of Delegates. No funds of the Society shall be appropriated for any purpose, except pursuant to a resolution of the Council.

ARTICLE VIII.—REFERENDUM.

Section 1. At any annual or stated meeting of the Society a majority of the members present may order a general referendum on any question in accordance with such general regulations respecting the manner of submission as the House of Delegates may prescribe. Members of the Society may vote thereon by mail or by roll call in open meeting. The poll on the question shall be closed at the expiration of ten days after the general

submission; and if the members voting shall comprise a majority of all the members of the Society, a majority of such vote shall determine the question and be binding on the House of Delegates.

Sec. 2. The House of Delegates may voluntarily, by the vote of a majority of its members present at any meeting, submit any question before it to a general referendum, as provided in the preceding section, and the result shall be binding on the House of Delegates.

ARTICLE IX.—BOARD OF MEDICAL EXAMINERS.

Candidates for vacancies in the State Board of Examiners shall be selected by a committee of five, appointed by the President of the Society, their selection to be reported to the House of Delegates before being forwarded to the Board of Regents. In the event of any emergency making it necessary for the Board of Regents to request nominations from the Society between its annual meetings, then the committee shall report directly to the Board of Regents.

ARTICLE X.—AMENDMENTS.

No article of this Constitution shall be amended except by a two-thirds vote of the delegates present at any annual meeting, nor unless notice of the proposed amendment shall have been given at a previous annual meeting and shall have been published twice during the year in the official bulletin or journal of the Society, or sent by order of the House of Delegates to each county society in affiliation with the Society at least two months before the meeting at which final action shall be taken thereon.

Sec. 2. Thirty delegates shall constitute a quorum.

Sec. 3. The House of Delegates shall make careful inquiry into the condition of the profession in each county of the State, and shall have authority to adopt such methods and measures not in conflict with the Constitution and By-Laws of the Society as it may deem most efficient for building up and increasing the interest in such county societies as already exist; for organizing the profession in counties where societies do not exist; for organizing district branches, and for protecting the members of the Society against suits for alleged malpractice.

He shall be ex-officio a member of all standing committees.

Sec. 2. The Vice-Presidents shall assist the President in the discharge of his duties, and in his absence the Vice-President next in numerical order shall perform his duties. Sec. 3. The Secretary shall attend all meetings of the Society, the House of Delegates, the Council and the Censors, and shall keep minutes of their respective proceedings in separate records. He shall be the custodian of the seal of the Society and of all books of record and papers belonging to the Society, except such as properly belong to the Treasurer, and shall keep an account of and promptly turn over to the Treasurer all funds of the Society which come into his hands. He shall provide for the registration of the members at all sessions of the Society. With the aid and cooperation of the secretaries of the county societies, he shall keep a proper register of all the registered physicians of the State by counties. He shall aid the Councillors in the organization and improvement of the county societies and the extension of the power and influence of the Society. He shall conduct the official correspondence, notifying members of meetings, officers of their election and committees of their appointment and duties. He shall affix the seal of the Society to all credentials issued to members of the Society elected or appointed by the House of Delegates and to such other papers and documents as may require the same. He shall make an annual report to the House of

Delegates. He shall supply each county society with the necessary blanks for making their annual reports to this Society. Acting under the direction of the Committee on Scientific Work, he shall prepare and issue all programs. The amount of his salary shall be fixed by the Council. He shall be ex-officio a member of all standing committees.

Sec. 4. The Treasurer shall keep accurate books of account of all moneys of the Society which he may receive, and shall disburse the same when thereunto duly authorized by the Council; but all checks drawn by the Treasurer upon the funds of the Society shall be countersigned by the President, or by the Secretary of the Society. He shall give security for the faithful performance of his duties, which shall be approved and retained by the President, and he shall make an annual report to the House of Delegates. The Treasurer shall be a trustee of the Merritt H. Cash fund. His salary shall be fixed by the Council.

Sec. 5. Each district Councillor shall visit the counties of his district at least once a year. He shall make an annual report of his work and of the condition of the profession in each county in his district at the annual session of the House of Delegates. The necessary traveling expenses incurred by each Councillor in the line of his duty as herein defined may be allowed by the Council on a proper itemized statement; but this shall not be construed to include his expenses in attending the annual session of the Society.

CHAPTER VII.—STANDING COMMITTEES.

Section 1. The following shall be the standing committees of the Society:
A Committee on Scientific Work.
A Committee on Legislation.
A Committee on Public Health.
A Committee on Arrangements.

All committees shall be elected by the House of Delegates, unless otherwise provided.

Sec. 2. The Committee on Scientific Work shall consist of three members, including the Chairman, and shall determine the character and scope of scientific proceedings of the Society for each session, subject to the instructions of the House of Delegates. Thirty days prior to each annual session it shall prepare and forward to the Secretary a program announcing the order in which papers, discussions and other business shall be presented.

Sec. 3. The Committee on Legislation shall consist of three members, including the Chairman. It shall keep in touch with professional and public opinion. Under the direction of the House of Delegates it shall represent the Society in procuring the enforcement of the medical laws of the State in the interest of public health and of scientific medicine, and in procuring the enactment of such medical laws as will best secure and promote the welfare of the whole people.

Sec. 4. The Committee on Public Health shall consist of three members, including the Chairman. It shall report upon and present to the Society such subjects as may seem to the committee to be of special importance in their relation to the public health.

Sec. 5. The Committee on Arrangements shall consist of eight members, including the Chairman. It shall provide suitable accommodations for the meeting places of the Society and of the House of Delegates, Council and Censors, and shall have general charge of the arrangements for all meetings. The Chairman of the committee shall report an outline of the arrangements to the Secretary for publication in the program, and shall make such additional announcements during the session as occasion may require.

CHAPTER VIII.—DISTRICT BRANCHES.

Sec. 3. The President of the district branch shall be the Councillor for that branch.

Sec. 4. Each District Branch may adopt a constitution and by-laws for its government, provided that the same shall first be approved by the Council of the Society.

CHAPTER IX.—COUNTY SOCIETIES.

Section 1. County societies shall be organized as soon as practicable in every county of the State in which no county society exists, but there shall be but one county society in each county.

Sec. 2. Full and ample opportunity shall be given to every reputable physician to become a member of the society in the county in which he resides, and if there be no such society, then in the county society of an adjoining county.

Sec. 3. Whenever a member in good standing in any county medical society removes to another county in this State, his name, upon his request, shall be transferred to the roster of the county society of the county to which he removes, without cost to him.

Sec. 4. At its annual meeting each county society shall elect a delegate or delegates to represent it in the House of Delegates of this Society in accordance with the Constitution and By-Laws of this Society.

Sec. 5. The Secretary of each county society shall keep a roster of its members and of all other registered physicians of the county, in which shall be shown the full name of such physicians, with their addresses, the colleges from which they graduated, and the date of graduation, the date of their license to practice in this State, and such other information as may be deemed to be useful. In keeping such roster the Secretary shall note any changes in the personnel of the profession by death or by removal to or from the county, and in making his annual report he shall account for every physician who shall have practiced in the county during the year.

Sec. 6. The secretary of each county society shall forward a copy of its roster of officers and members, list of delegates and list of other registered physicians of the county, to the Secretary of this Society thirty days before the date of its annual meeting.

Sec. 7. On or before the first day of June of each year the Treasurer of each county society shall forward to the Treasurer of this Society the amount of the assessment made upon it by the House of Delegates, which assessment shall be at a uniform per capita rate throughout the State based upon membership.

Sec. 8. Each county society may adopt a constitution and by-laws for the

regulation of its affairs, provided that the same shall first be approved by the Council of this Society.

Sec. 9. The term county society as used in these By-Laws shall be deemed to include all societies which may be organized and chartered by the House of Delegates.

CHAPTER X.—MISCELLANEOUS.

Section 1. No address or paper before the Society, except those of the President and orators, shall occupy more than twenty minutes in its delivery, and no member shall speak upon any question before the house for longer than five minutes nor more than once on any subject, except by consent.

Sec. 2. All papers read before the Society by its members shall become the property of the Society. Permission may be given, however, by the House of Delegates or the Committee on Publication to publish such paper in advance of its appearance in The New York State Journal of Medicine.

Sec. 3. Any distinguished physician of a foreign country or a physician not a resident of this State, who is a member of his own State Association, may become a guest during any annual session upon the invitation of the President or officers of the Society, and may be accorded the privilege of participating in all the scientific work of the session.

Sec. 4. The deliberations of the Society shall be goverened by parliamentary usage, as contained in Roberts' Rules of Order, when not in conflict with the Constitution and By-Laws of the Society.

CHAPTER XI.—AMENDMENTS.

These By-Laws shall not be amended except by a majority vote of all the delegates present at a meeting of the House of Delegates, nor unless ten days' notice of the meeting and of the proposed amendment shall have been given to each member of the House of Delegates.

PRINCIPLES OF MEDICAL ETHICS.*

PREFACE.

At the annual meeting of the American Medical Association, held in New Orleans, the House of Delegates unanimously adopted, on May 7, 1903, the "Principles of Medical Ethics" recommended by its committee, and ordered that the following extract from the report of the Special Committee on Revision of the Code of Medical Ethics be printed as an explanatory preface to these "Principles":

"The caption 'Principles of Medical Ethics' has been substituted for 'Code of Medical Ethics.' Inasmuch as the American Medical Association may be conceived to hold a relation to the constituent State association analogous to that of the United States through its constitution to the several states, the committee deemed it wiser to formulate the principles of medical ethics without definite reference to code or penalties. Large discretionary powers are thus left to the respective state and territorial societies to form such codes and establish such rules for the professional conduct of their members as they may consider proper, provided, of course, that there shall be no infringement of the established ethical principles of this Association."

"Respectfully submitted.

"T. J. Happel.
"Nicholas Senn.
"William H. Welch.
"E. Eliot Harris, Chairman."

The American Medical Association promulgates as a suggestive and advisory document the following:

---

* Adopted by the Medical Society of the State of New York, May 10, 1906.

CHAPTER I.—THE DUTIES OF PHYSICIANS TO THEIR PATIENTS.

Section 1.—Physicians should not only be ever ready to obey the calls of the sick and the injured, but should be mindful of the high character of their mission and of the responsibilities they must incur in the discharge of momentous duties. In their ministrations they should never forget that the comfort, the health, and the lives of those entrusted to their care depend on skill, attention, and fidelity. In deportment they should unite tenderness, cheerfulness, and firmness, and thus inspire all sufferers with gratitude, respect, and confidence. These observances are the more sacred because, generally, the only tribunal to adjudge penalties for unkindness, carelessness or neglect, is their own conscience.

Sec. 2.—Every patient committed to the charge of a physician should be treated with attention and humanity, and reasonable indulgence should be granted to the caprices of the sick. Secrecy and delicacy should be strictly observed; and the familiar and confidential intercourse to which physicians are admitted, in their professional visits, should be guarded with the most scrupulous fidelity and honor.

Sec. 3.—The obligation of secrecy extends beyond the period of professional services; none of the privacies of individual or domestic life, no infirmity of disposition or flaw of character observed during medical attendance, should ever be divulged by physicians, except when imperatively required by the laws of the State. The force of the obligation of secrecy is so great that physicians have been protected in its observance by courts of justice.

Sec. 4.—Frequent visits to the sick are often requisite, since they enable the physician to arrive at a more perfect knowldge of the disease, and to meet promptly every change which may occur. Unnecessary visits are to be avoided, as they give undue anxiety to the patient; but to secure the patient against irritating suspense and disappointment the regular and periodical visits of the physician should be made as nearly as possible at the hour when they may be reasonably expected by the patient.

Sec. 5.—Ordinarily, the physician should not be forward to make gloomy prognostications, but should not fail, on proper occasions, to give timely notice of dangerous manifestations to the friends of the patient; and even to the patient, if absolutely necessary. This notice, however, is at times so peculiarly alarming when given by the physician, that its deliverance may often be preferably assigned to another person of good judgment.

Sec. 6.—The physician should be a minister of hope and comfort to the sick, since life may be lengthened or shortened not only by the acts but by the words or manner of the physician, whose solemn duty is to avoid all utterances and actions having a tendency to discourage and depress the patient.

Sec. 7.—The medical attendant ought not to abandon a patient because deemed incurable; for continued attention may be highly useful to the sufferer and comforting to the relatives, even in the last period of the fatal malady, by alleviating pain and by soothing mental anguish.

Sec. 8.—The opportunity which a physician has of promoting and strengthening the good resolutions of patients suffering under the consequences of evil conduct ought never to be neglected. Good counsels, or even remonstrances, will give satisfaction, not offense, if they be tactfully proffered and evince a genuine love of virtue, accompanied by a sincere interest in the welfare of the person to whom they are addressed.

CHAPTER II.—THE DUTIES OF PHYSICIANS TO EACH OTHER AND TO THE PROFESSION AT LARGE.

Article I.—Duties for the Support of Professional Character.

Section 1.—Everyone on entering the profession, and thereby becoming entitled to full professional fellowship, incurs an obligation to uphold its dignity and honor, to exalt its standing and to extend the bounds of its usefulness. It is inconsistent with the principles of medical science and it is incompatible with honorable standing in the profession for physicians to designate their practice as based on an exclusive dogma or a sectarian system of medicine.

Sec. 2.—The physician should observe strictly such laws as are instituted for the government of the members of the profession; should honor the fraternity as a body; should endeavor to promote the science and art of medicine and should entertain a due respect for those seniors who, by their labors, have contributed to its advancement.

Sec. 3.—Every physician should identify himself with the organized body of his profession as represented in the community in which he resides. The organization of local or county medical societies, where they do not exist, should be effected, so far as practicable. Such county societies, constituting as they do the chief element of strength in the organization of the profession, should have the active support of their members and should be made instruments for the cultivation of fellowship, for the exchange of professional experience, for the advancement of medical knowledge, for the maintenance of ethical standards, and for the promotion in general of the interests of the profession and the welfare of the public.

Sec. 4.—All county societies thus organized ought to place themselves in affiliation with their respective state associations, and these, in turn, with the American Medical Association.

Sec. 5.—There is no profession from the members of which greater purity of character and a higher standard of moral excellence are required than the medical; and to attain such eminence is a duty every physician owes alike to the profession and to patients. It is due to the patients, as without it their respect and confidence can not be commanded; and to the profession, because no scientific attainments can compensate for the want of correct moral principles.

Sec. 6.—It is incumbent on physicians to be temperate in all things, for the practice of medicine requires the unremitting exercise of a clear and vigorous understanding; and in emergencies—for which no physician should be unprepared—a steady hand, an acute eye and an unclouded mind are essential to the welfare and even to the life of a human being.

Sec. 7.—It is incompatible with honorable standing in the profession to resort to public advertisement or private cards inviting the attention of persons affected with particular diseases; to promise radical cures; to publish cases or operations in the daily prints, or to suffer such publications to be made; to invite laymen (other than relatives who may desire to be at hand) to be present at operations; to boast of cures and remedies; to adduce certificates of skill and success, or to employ any of the other methods of charlatans.

Sec. 8.—It is equally derogatory to professional character for physicians to hold patents for any surgical instruments or medicines; to accept rebates on prescriptions or surgical appliances; to assist unqualified persons to evade the legal restrictions governing the practice of medicine; or to dispense, or promote the use of secret medicines, for if such nostrums are of real efficacy, any concealment regarding them is inconsistent with beneficence and professional liberality, and if mystery alone give them public notoriety, such craft implies either disgraceful ignorance or fraudulent avarice. It is highly reprehensible for physicians to give certificates attesting the efficacy of secret medicines, or other substances used therapeutically.

Article II.—Professional Services of Physicians to Each Other.

Section 1.—Physicians should not, as a general rule, undertake the treatment of themselves, nor of members of their family. In such circumstances they are peculiarly dependent on each other; therefore, kind offices and professional aid should always be cheerfully and gratuitously afforded. These visits ought not, however, to be obtrusively made, as they may give rise to embarrassment or interfere with that free choice on which such confidence depends.

Sec. 2.—All practicing physicians and their immediate family dependants are entitled to the gratuitous services of any one or more of the physicians residing near them.

Sec. 3.—When a physician is summoned from a distance to the bedside of a colleague in easy financial circumstances, a compensation, proportionate to traveling expenses and to the pecuniary loss entailed by absence from the

accustomed field of professional labor, should be made by the patient or relatives.

Sec. 4.—When more than one physician is attending another, one of the number should take charge of the case, otherwise the concert of thought and action so essential to wise treatment can not be assured.

Sec. 5.—The affairs of life, the pursuit of health and the various accidents and contingencies to which a physician is peculiarly exposed sometimes require the temporary withdrawal of this physician from daily professional labor and the appointment of a colleague to act for a specified time. The colleague's compliance is an act of courtesy which should always be performed with the utmost consideration for the interest and character of the family physician.

Article III.—The Duties of Physicians in Regard to Consultations.

Section 1.—The broadest dictates of humanity should be obeyed by physicians whenever and wherever their services are needed to meet the emergencies of disease or accident.

Sec. 2.—Consultations should be promoted in difficult cases, as they contribute to confidence and more enlarged views of practice.

Sec. 3.—The utmost punctuality should be observed in the visits of physicians when they are to hold consultations, and this is generally practicable, for society has been so considerate as to allow the plea for a professional engagement to take precedence over all others.

Sec. 4.—As professional engagements may sometimes cause delay in attendance, the physician who first arrives should await for a reasonable time, after which the consultation should be considered as postponed to a new appointment.

Sec. 5.—In consultations no insincerity, rivalry or envy should be indulged; candor, probity and all due respect should be observed toward the physician in charge of the case.

Sec. 6.—No statement nor discussion of the case should take place before the patient or friends, except in the presence of all the physicians attending, or by their common consent; and no opinions nor prognostications should be delivered which are not the result of previous deliberation and concurrence.

Sec. 7.—No decision should restrain the attending physician from making such subsequent variations in the mode of treatment as any unexpected change in the character of the case may demand. But at the next consultation reasons for the variations should be stated. The same privilege, with its obligation, belongs to the consultant when sent for in an emergency during the absence of the family physician.

Sec. 8.—The attending physician, at any time, may prescribe for the patient; not so the consultant, when alone, except in a case of emergency or when called from a considerable distance. In the first instance the consultant should do what is needed, and in the second should do no more than make an examination of the patient and leave a written opinion, under seal, to be delivered to the attending physician.

Sec. 9.—All discussions in consultation should be held as confidential. Neither by words nor by manner should any of the participants in a consultation assert or intimate that any part of the treatment pursued did not receive his assent.

Sec. 10.—It may happen that two physicians can not agree in their views of the nature of a case and of the treatment to be pursued. In the event of such disagreement a third physician should, if practicable, be called in. None but the rarest and most exceptional circumstances would justify the consultant in taking charge of the case. He should not do so merely on the solicitation of the patient or friends.

Sec. 11.—A physician who is called in consultation should observe the most honorable and scrupulous regard for the character and standing of the attending physician, whose conduct of the case should be justified, as far as can be, consistently with a conscientious regard for truth, and no hint or insinuation should be thrown out which would impair the confidence reposed in the attending physician.

Article IV.—Duties of Physicians in Cases of Interference.

Section 1.—Medicine being a liberal profession, those admitted to its ranks should found their expectations of practice especially on the character and the extent of their medical education.

Sec. 2.—The physician, in his intercourse with a patient under the care of another physician, should observe the strictest caution and reserve; should give no disingenuous hints relative to the nature and treatment of the patient's disorder, nor should the course of conduct of the physician, directly or indirectly, tend to diminish the trust reposed in the attending physician.

Sec. 3.—The same circumspection should be observed when, from motives of business or friendship, a physician is prompted to visit a person who is under the direction of another physician. Indeed, such visits should be avoided, except under peculiar circumstances; and when they are made, no inquiries should be instituted relative to the nature of the disease, or the remedies employed, but the topics of conversation should be as foreign to the case as circumstances will admit.

Sec. 4.—A physician ought not to take charge of, nor prescribe for, a patient who has recently been under the care of another physician, in the same illness, except in case of a sudden emergency, or in consultation with the physician previously in attendance, or when that physician has relinquished the case or has been dismissed in due form.

Sec. 5.—The physician acting in conformity with the preceding section should not make damaging insinuations regarding the practice previously adopted, and, indeed, should justify it if consistent with truth and probity; for it often happens that patients become dissatisfied when they are not immediately relieved, and, as many diseases are naturally protracted, the seeming want of success, in the first stage of treatment, affords no evidence of a lack of professional knowledge or skill.

Sec. 6.—When a physician is called to an urgent case, because the family attendant is not at hand, unless assistence in consultation is desired, the former should resign the care of the patient immediately on the arrival of the family physician.

Sec. 7.—It often happens, in cases of sudden illness, and of accidents and injuries, owing to the alarm and anxiety of friends, that several physicians are simultaneously summoned. Under these circumstances, courtesy should assign the patient to the first who arrives, and who, if necessary, may invoke the aid of some of those present. In such case, however, the acting physician should request that the family physician be called, and should withdraw unless requested to continue in attendance.

Sec. 8.—Whenever a physician is called to the patient of another physician during the enforced absence of that physician the case should be relinquished on the return of the latter.

Sec. 9.—A physician, while visiting a sick person in the country, may be asked to see another physician's patient because of a sudden aggravation of the disease. On such an occasion the immediate needs of the patient should be attended to and the case relinquished on the arrival of the attending

Sec. 10.—When a physician who has been engaged to attend an obstetric case is absent and another is sent for, delivery being accompished during the vicarious attendance, the acting physician is entitled to the professional fee, but must resign the patient on the arrival of the physician first engaged.

Article V.—Differences Between Physicians.

Section 1.—Diversity of opinion and opposition of interest may, in the medical as in other professions, sometimes occasion controversy and even contention. Whenever such unfortunate cases occur and can not be immediately adjusted, they should be referred to the arbitration of a sufficient number of impartial physicians.

Sec. 2.—A peculiar reserve must be maintained by physicians toward the public in regard to some professional questions, and as there exist many points in medical ethics and etiquette through which the feelings of physicians may be painfully assailed in their intercourse, and which can not be understood or appreciated by general society, neither the subject-matter of

their differences nor the adjudication of the arbitrators should be made public.

Article VI.—Compensation.

Section 1.—By the members of no profession are eleemosynary services more liberally dispensed than by the medical, but justice requires that some limits should be placed to their performance. Poverty, mutual professional obligations, and certain of the public duties named in Sections 1 and 2, of Chapter III, should always be recognized as presenting valid claims for gratuitous services; but neither institutions endowed by the public or by the rich, or by societies for mutual benefit, for life insurance, or for analogous purposes, nor any profession or occupation can be admitted to possess such privilege.

Sec. 2.—It can not be justly expected of physicians to furnish certificates of inability to serve on juries, or to perform militia duty; to testify to the state of health of persons wishing to insure their lives, obtain pensions, or the like, without due compensation. But to persons in indigent circumstances such services should always be cheerfully and freely accorded.

Sec. 3.—Some general rules should be adopted by the physicians in every town or district relative to the minimum pecuniary acknowledgement from their patients; and it should be deemed a point of honor to adhere to these rules with as much uniformity as varying circumstances will admit.

Sec. 4.—It is derogatory to professional character for physicians to pay or offer to pay commissions to any person whatsoever who may recommend to them patients requiring general or special treatment or surgical operations. It is equally derogatory to professional character for physicians to solicit or to receive such commissions.

CHAPTER III.—THE DUTIES OF THE PROFESSION TO THE PUBLIC.

Section 1.—As good citizens it is the duty of physicians to be very vigilant for the welfare of the community, and to bear their part in sustaining its laws, institutions and burdens; especially should they be ready to co-operate with the proper authorities in the administration and the observance of sanitary laws and regulations, and they should also be ever ready to give counsel to the public in relation to subjects especially appertaining to their profession, as on questions of sanitary police, public hygiene and legal medicine.

Sec. 2.—It is the province of physicians to enlighten the public in regard to quarantine regulations; to the location, arrangement and dietaries of hospitals, asylums, schools, prisons and similar institutions; in regard to measures for the prevention of epidemic and contagious diseases; and when pestilence prevails, it is their duty to face the danger, and to continue their labors for the alleviation of the suffering people, even at the risk of their own lives.

Sec. 3.—Physicians, when called on by legally constituted authorities, should always be ready to enlighten inquests and courts of justice on subjects strictly medical, such as involve questions relating to sanity, legitimacy, murder by poison or other violent means, and various other subjects embraced in the science of medical jurisprudence. It is but just, however, for them to expect due compensation for their services.

Sec. 4.—It is the duty of physicians, who are frequent witnesses of the great wrongs committed by charlatans, and of the injury to health and even destruction of life caused by the use of their treatment, to enlighten the public on these subjects, and to make known the injuries sustained by the unwary from the devices and pretensions of artful impostors.

Sec. 5.—It is the duty of physicians to recognize and by legitimate patronage to promote the profession of pharmacy, on the skill and proficiency of which depends the reliability of remedies, but any pharmacist who, although educated in his own profession, is not a qualified physician, and who assumes to prescribe for the sick, ought not to receive such countenance and support. Any druggist or pharmacist who dispenses deteriorated or sophisticated drugs or who substitutes one remedy for another designated

in a prescription ought thereby to forfeit the recognition and influence of physicians.

LEGAL DUTIES OF PHYSICIANS.

1. All physicians practicing in the City of New York (including those in public institutions) must be registered with the Department of Health.
2. An attending physician must furnish a certificate of death within thirty-six hours after the death of the patient, or, if death be due to a contagious or infectious disease, forthwith.
3. If a person dies from criminal violence, or by a casualty, or suddenly when in apparent health, or when unattended by a physician, or in prison, or in any suspicious or unusual manner, the case must be referred to a Coroner.
4. It shall be the duty of every physician to report to the Department of Health, in writing, the full name, age, and address of every person suffering from any one of the infectious diseases included in the list appended, with the name of the disease, within twenty-four hours of the time when the case is first seen.

A.—Contagious (very readily communicable): Measles, rubella (rotheln), scarlet fever, small-pox, varicella (chicken-pox), typhus fever, relapsing fever.

B.—Communicable: Diphtheria (croup), typhoid fever, Asiatic cholera, tuberculosis (of any organ), plague, tetanus, anthrax, glanders, epidemic cerebro-spinal meningitis, leprosy, infectious diseases of the eye (trachoma, suppurative conjunctivitis), puerperal septicemia, erysipelas, whooping cough.

C.—Indirectly communicable (through intermediary host): Yellow fever, malarial fever.

5. Physicians must report births occurring in their practice within ten days after the event.
6. Every physician must preserve a duplicate record of every death and birth so reported.

N.B.—Any violation of the Sanitary Code is a misdemeanor. (Sec. 1172. Chap. 466, Laws of 1901.)

RULES AND REGULATIONS OF THE DEPARTMENT OF HEALTH RELATING TO PHYSICIANS.

1. Reports of cases of contagious diseases, of births, of still-births, and of deaths must be written with black ink, upon blank forms provided by the Department, which will be furnished upon application, personally or by mail.
2. Certificates of death will be returned for additional information, which

give any of the following diseases, without explanation, as the sole cause of death:

Abortion,	Erysipelas,	Meningitis,	Phlebitis,
Cellulitis,	Gangrene,	Metritis,	Pyæmia,
Childbirth,	Gastritis,	Miscarriage,	Septiæmia,
Convulsions,	Hæmorrhage,	Peritonitis,	Tetanus.

(Any one of these may be the result of an injury, and thus be a subject for investigation by a Coroner. If it is not, the certificate should make that fact plain.)

3. No certificate will be accepted which gives a mere symptom as the sole cause of death (such as "asphyxia," "debility," "dropsy," "heart failure," etc.), unless accompanied by a satisfactory written explanation.

4. Certificates containing palpable errors of names, dates, etc., or which are illegible, will be returned, and a new certificate required, as no corrections, erasures, or interlineations will be permitted.

(These certificates are permanent records of great legal importance, and it is necessary that they should show upon the face that they are original records, and have not been tampered with.)

N.B.—Physicians are particularly requested to make their reports of the cause of death as full and accurate as possible, in order that the records of this office may be of statistical value to the medical profession and the public.

It shall be the duty of every undertaker having notice of the death of any person within the City of New York of small-pox, diphtheria (croup), scarlet fever, yellow fever, typhus fever, plague, Asiatic cholera, measles, or any other infectious disease dangerous to the general health of the community, or of the bringing of the dead body of any person who has died of any such disease into such city, to give immediate notice thereof to this Department. No person shall retain or expose, or assist in the retention or exposure of the dead body of any such person except in a coffin or casket properly sealed; nor shall he allow any such body to be placed in any coffin or casket unless the body has been wrapped in a sheet saturated with a proper disinfecting solution, and the coffin or casket shall then be immediately and permanently sealed. No undertaker shall assist in the public or church funeral of any such person. No undertaker shall use, or cause or allow to be used, at any funeral, or in any room where the dead body of any person shall be, any draperies, decorations, rugs, or carpets, belonging to or furnished by him or under his direction.

A public or church funeral shall not be held of any person who has died of small-pox, diphtheria (croup), scarlet fever, yellow fever, typhus fever, Asiatic cholera, measles, or plague; but the funeral of such person shall be private, and it shall not be lawful to invite, or permit at the funeral of any person who has died of any one of the above diseases, or of any infectious disease, or at any services connected therewith, any person whose attendance is not necessary, or to whom there is danger of contagion thereby.

By order of the Board of Health.

THOMAS DARLINGTON,
President.

EUGENE W. SCHEFFER,
Secretary.

The location of the Groszmann School is ideal. Twenty-five acres of ground on the crest of Watchung Mountain 500 feet above the sea.

Large staff of consulting physicians and specialists who have agreed to assist the director in diagnosing and treating the atypical conditions of the pupils

The Home under State authority receives and treats mental diseases. It also receives as voluntary patients those with nervous diseases, selected cases of alcoholic or drug habit.

Amityville is one hour from New York or Brooklyn, via the Long Island Railroad, and is situated on the south side of Long Island fronting the Great South Bay and Atlantic Ocean. The grounds are ample (46 acres) and consist of lawns, gardens and groves through which are walks and drives and shade trees and borders of flowers.

The Sammis Cottage, completed in 1895, offers all the comforts and privileges of a luxurious home. While entirely independent in its operations, it is sufficiently near the Gymnasium Bath and Main house, that all who wish may enjoy their benefits.

The Bailey Cottage, completed in1903.is occupied by the Physician-in-Charge of the Home. Two suites have been arranged for suitable cases, who will be under his special care. This cottage is built upon an adjacent tract of thirty acres of land, and it is the intention of the management to make this the center of a group of cottages built for general sanitarium work.

The Stanton Cottage, completed in 1900, is an ideal cottage for one patient, especially if friends desire absolute separation from others, and at a comparatively moderate charge.

Contains the Essential Elements of the Animal Organization—Potash and Lime;

The Oxidizing Agents—Iron and Manganese;

The Tonics—Quinine and Strychnine (each fluid drachm contains the equivalent of 1-64th grain of pure Strychnine).

And the Vitalizing Constituent—Phosphorus; the whole combined in the form of a syrup with a **Slightly Alkaline Reaction.**

It Differs in Its Effects from All Analogous Preparations; and it possesses the important properties of being pleasant to the taste, easily borne by the stomach, and harmless under prolonged use.

It Has Gained a Wide Reputation, particularly in the treatment of Chronic Bronchitis, and other affections of the respiratory organs. It has also been employed with much success in various nervous and debilitating diseases.

Its Curative Power is largely attributable to its stimulant, tonic and nutritive properties, by means of which the energy of the system is recruited.

Its Action Is Prompt; it stimulates the appetite and the digestion, it promotes assimilation and it enters directly into the circulation with the food products.

The prescribed dose produces a feeling of buoyancy, and removes depression and melancholy; HENCE THE PREPARATION IS OF GREAT VALUE IN THE TREATMENT OF MENTAL AND NERVOUS AFFECTIONS. From the fact, also, that it exerts a tonic influence, and induces a healthy flow of the secretions, its use is indicated in a wide range of diseases.

This preparation can be procured at all chemists and druggists, everywhere.

Extract from "Remedial Measures Indicated in Affections Attended with Pain." By G. S. Trotter, M.D.

***New Albany Medical Herald*, January, 1903.**

"In papine advanced pharmacy has given us a perfect opium preparation. It possesses the anodyne virtues of opium and not the constipating and untoward actions. Papine may be briefly defined as the only opiate which is free from the evil effects which I have just named."

FORMULA :—Papine is the anodyne principle of opium, the narcotic and convulsive elements being eliminated, and is derived from the concrete juice of the unripe capsules of *Papaver somniferum*. One fluid drachm is equal in anodyne power to one-eighth grain of morphia.

To the Medical Journal Advertiser

WOULD you think of skipping the medical profession of the entire State of New York in your advertising campaign? On the contrary, you probably use a large number of advertising mediums in your endeavor to cover this rich territory. Why not use the one journal that covers the whole State more thoroughly than all the other medical journals combined? Each member of every county medical society throughout the entire State must be, and is, a member of the Medical Society of the State of New York, and, as such, is entitled to receive regularly the NEW YORK STATE JOURNAL OF MEDICINE. Think it over. Through the JOURNAL alone you can reach practically all the reputable practitioners in every town, country village, hamlet and cross-roads throughout the State, as well as those in the larger cities of New York, Brooklyn, Buffalo, Albany, etc. Furthermore, each physician in the State who receives the JOURNAL knows that it is his journal—the one in which he has a greater and more personal interest than in any or all other publications. Think it over.
